Where Are The Rest of Our Accounts?

You are only able to see the accounts in PSB Online Banking to which you are an owner or signer for. If you are not an owner or signer on a particular account, it will not display in PSB Online Banking.

If you believe that there is an account that you are indeed a signer on or owner of and it does not display, please contact Palmyra State Bank so we may attempt to rectify the situation.

Please note that accounts that are outside of your individual portfolio, will not display when you login with your personal credentials. Meaning, that if you have your personal accounts and for instance are the treasurer of your church, when you log in to view your account information with your personal account information, your church account information will not display. This behavior is intentional and characteristic of PSB Online Banking.
