Help, I Can't Remember My Password

Palmyra State Bank (PSB) requires that your Access ID be at least 6 characters in length. Your password must contain both letters and numbers as well.

If you are unable to remember your password, you may click the Forgot Password link and if you have a valid email address on file, it will be sent to that email address. If you do not have a valid email address on file, please contact Palmyra State Bank and a representative will be happy to assist you.
